EXAMINER'S AMENMDENT AND REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on April 30, 2004 has been entered.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows by replacing the first paragraph of the specification on page 1 with the following paragraph.

This is a continuation-in-part of U.S. Patent Application Serial N. 09/073,085, filed May 5, 1998, now U.S. Patent 6,069,287.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1-10 is that the prior art of record does not disclose or suggest a process for producing propylene as claimed in which the zeolite catalyst is contacted with the carbonaceous feed in the first zone thereby forming a pre-coked catalyst. The primary reason for allowance of claims 11-19 is that the prior art of record does not disclose or suggest a process for producing propylene as claimed in which the claimed combined feed is contacted with the zeolite catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The Conner reference discloses a process for producing low molecular weight hydrocarbons by cracking.
